

<div>Known DVD Image Issues for Electronically Filed Returns (Form 990 Family)</div> <div>As of February 19, 2010</div>				
Tax Year	Form/Schedule	Line Number	Description of the Problem*	Status
2007	Form 990	Part I, Line 9a (underline and box)	DVD images may show that the values for Lines 9a (underline and box) are transposed.	This problem was corrected in July 2009.
2007	Form 990	Part IV, Line 64a, column B, attachment	DVD images show the Interest Rate on the attachment associated with Line 64a, column B, titled: Tax Exempt Bonds Liabilities Schedule, as 100 times it's actual value. For example, an interest rate of 3.75 may be displayed as 375%. NOTE: <i>This problem may also apply to other percentages listed on the return.</i>	This problem was corrected on January 7, 2010.
2008	Form 990	Part III, line 1 – Organization's Mission	DVD images show the information from Line 4a instead of the actual data entered for Line 1.	This problem was corrected on January 25, 2010
2008	Form 990	Part VIII, Lines 8a (underline and box)	DVD images may show that the values for Lines 8a (underline and box) where transposed.	This problem was corrected in July 2009.
2008	Schedule A	Schedule A, Part II, Section C, Lines 14 and 15	DVD images show the % entries for these lines as a space between the whole number and the decimal, instead of a period (.). For example .30125 is displayed as "30 125%" instead of "30.125%. NOTE: <i>This problem may also apply to any percentages listed on the return.</i>	This problem was corrected on January 25, 2010
2008	Schedule A	Schedule A, Part IV – Supplemental Information	DVD images do not display data entered in Part IV.	This problem was corrected on January 7, 2010.
2008	Schedule D	Schedule D, Part XIV – Supplemental Information	DVD images display data twice (at the bottom of page 4 of the Schedule D and again as a supplemental information statement.)	This problem was corrected on January 25, 2010
2008	Schedule J	Schedule J, Part III – Supplemental Information	DVD images display data twice (as supplemental information and again at the end of the document under "additional data")	This problem was corrected on January 25, 2010
*IMPORTANT NOTE: The problems identified on this spreadsheet do not impact the data captured by the IRS for the taxpayer. Only the display of the data is affected.
